

Kevin Kattakayam

Software Engineer | AI, Backend & Full Stack | Internship & Full-Time | Graduating 2027

Coimbatore, India | +91-9778371627 | kevinbastin369@gmail.com

github.com/KevinKattakayam | linkedin.com/in/kevin-kattakayam-6805a3290

EDUCATION

Karunya Institute of Technology and Sciences

2023 – 2027 (Expected)

B.Tech, Computer Science and Engineering (AI & ML) – CGPA: 8.39/10

Coimbatore, India

Viswajyothi CMI Public School, Angamaly – Secondary, CBSE (2021): 92.2%; Higher Secondary, CBSE (2023): 86%

EXPERIENCE

TheAiSignal – Full Stack AI Developer Intern

May 2026 – Jul 2026

- Engineered AI-powered features across a React frontend, FastAPI backend, and REST API layer for production applications.
- Maintained deployment pipelines and release workflows across multiple projects using GitHub and Cloudflare.

Karunya Computer Technology Centre – Generative AI Trainee

Dec 2024 – Present

- Build LLM-powered applications with a team across multiple generative AI projects using LangChain, ChromaDB, and FAISS.
- Apply retrieval-augmented generation, prompt engineering, and OCR-based extraction to document processing workflows.

YoungMinds Technology Solutions Pvt Ltd – Generative AI Intern

May 2025 – Jul 2025

- Developed generative AI applications and automation tools in Python against LLM and REST APIs.

Karunya Innovation and Design Studio (KIDS) – Generative AI Intern

May 2025 – Jun 2025

- Built a multi-agent patent drafting and verification system in CrewAI, orchestrating 5 agents across claim writing, prior-art search, and IPO compliance checking.
- Generated all 9 IPO-compliant sections with auto-generated diagrams, exporting a filing package (Forms 1, 3, 5) as PDF and DOCX.

Octanet Services Pvt Ltd – Web Development Intern

May 2024 – Jun 2024

- Built responsive web applications using HTML, CSS, and JavaScript following mobile-first design principles.

PROJECTS

Distributed Observability Pipeline (Datadog-style)

github.com/KevinKattakayam/datadog

Go, Rust, Apache Kafka, ClickHouse, Prometheus, Grafana, Kubernetes, Helm, Terraform

- Built a streaming metrics pipeline: a Go (Gin) ingestor publishing validated metrics to Kafka, consumed by a Rust/tokio processor running EWMA and Z-score anomaly detection into ClickHouse.
- Ensured at-least-once delivery by committing offsets only after successful writes; added a circuit breaker, per-tenant rate limiting, and SLO burn-rate alerts. 53 unit and 25 integration tests.

PharmaTrace – Pharmaceutical Verification Platform

github.com/KevinKattakayam/pharma_trace

Python, FastAPI, LangGraph, Pydantic, React 19 PWA, Supabase PostgreSQL/PostGIS

- Built a 6-agent LangGraph pipeline over 3 drug registries (OpenFDA, RxNav, CDSCO) behind a FastAPI service, parallelizing lookups with `asyncio.gather` under strict Pydantic schemas.
- Shipped an offline-first React PWA with in-browser OCR, IndexedDB caching, four-language voice input, and a SHA-256 hash-chained audit log.

CollegeFind – College Discovery Platform

github.com/KevinKattakayam/collegefind

Next.js 16, TypeScript, Tailwind CSS, NextAuth, Prisma, Neon PostgreSQL | Live: college-discovery-zeta.vercel.app

- Shipped a live platform covering 200+ colleges: debounced search, multi-facet filters, shareable URL state, comparison across 11+ metrics, and an exam-rank admission predictor.

DevSync – Collaborative Developer Workspace

github.com/KevinKattakayam/devsync

Node.js, Express, TypeScript, Next.js, React, PostgreSQL, Prisma, Socket.io

- Built a real-time collaboration platform with JWT auth, RBAC, Socket.io live co-editing, and Kanban tasks over Prisma/PostgreSQL, with Zod validation and Jest/Supertest suites.

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Go, Rust, Java, SQL, HTML, CSS

AI & ML: LLMs, Agentic AI, RAG, Prompt Engineering, LangGraph, LangChain, CrewAI, PyTorch, OCR, NLP, Computer Vision

Backend & Web: FastAPI, Node.js, Express, Gin, React, Next.js, Streamlit, Prisma, Socket.io, REST APIs, gRPC, JWT, RBAC, Pydantic, Zod

Databases: PostgreSQL, ClickHouse, MongoDB, Supabase/PostGIS, Redis, ChromaDB, FAISS, Snowflake

Infrastructure & Testing: Docker, Kubernetes, Helm, Terraform, Kafka, Prometheus, Grafana, Git, CI/CD, Cloudflare, Azure, Jest, Supertest, pytest

Foundations: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, System Design

ACHIEVEMENTS & CERTIFICATIONS

- IEEE Publication (2026):** “Early Lung Cancer and Heart Disease Prediction from Clubbed Fingers Using Machine Vision”.
ieeexplore.ieee.org/document/11469562
- Completed Amazon ML Summer School 2026** (Amazon)

Certifications: Azure AI Engineer Associate, AI-102 (Microsoft) · SQL AI Developer Associate, DP-800 (Microsoft) · SnowPro Associate: Platform (Snowflake) · Agentforce Specialist (Salesforce) · Redis Associate Developer · LLM Security Professional, CLLMSP · Google Cybersecurity Professional
